FIVE STAR LUXURY AND COMFORT IS NOW AVAILABLE IN CARAVANS TOO WITH A LITTLE HELP FROM AHT!

BPark srl a leading Italian manufacturer of luxury caravans has started using the AHT heating mat system as its main form of heating for its caravans. The company has a long tradition and its caravans are associated with quality and finesse, which are the main reasons that they are exported successfully in many European countries. After considering all options available BPark chose the AHT technology without any hesitation, because it offers the greatest savings for both capital and operating heating costs as well as enhances even more the comfort levels of their caravans.
