## Metro Green Toyocho Golf Club - Tokyo

The unique AHT Advanced Amorphous Outdoor Heating Ribbons have been approved among many other competitors and is in the process of being installed at the putting green of the first hole of the famous Metro Green Toyocho Golf Club. Located in Tokyo and being one of the biggest in-town golf clubs in Japan with 90 - 200 yards length bays, the Toyocho Golf Club wants to keep its greens open 24/7 even during snow storms. Therefore after a long and thorough approval procedure it has chosen the unique AHT Advanced Amorphous Outdoor Heating Ribbons among many other competitors and is currently in the process of installation at the first hole putting green.

The Metro Green Toyocho Golf Club, belongs to the Tokyo Metro Co., Ltd. which apart from operating and managing the Tokyo area railways manages also other affiliated business such as Retail-related business (Management of shops at stations and other commercial facilities etc.), Real estate business (Developing office buildings for rent etc.), IT business (Leasing the optical fiber cable etc.).

With the stockholders of the Tokyo Metro Co Ltd being the Government of Japan (53.4%) and the Tokyo Metropolitan Government (46.6%), a Turnover of 332 Billion Yen and 8519 Employees is one of the largest and most respected railway organizations in the world.

After the successful installation and operation of the first hole putting green the Toyocho Golf Club will proceed with heating all its putting greens totaling an area of about 8500 m<sup>2</sup>.
